APPENDIX A

RESOLUTION No. A/1837/XY—467-1938

Education (A) Department, 23rd June, 1942

11. The proper constitution of the council and the executive committee is clearly a matter of great importance. His Excellency the Governor considers that the committee was right in proposing a reduction in the present number of Government nominees. He is anxious to have a fully representative Council, but to keep it within manageable limits. In His Excellency's view it is only right that the largest representation on the council should be given to men engaged in literature and science or those who have devoted themselves to their advancement and he would particularly welcome the presence of such men in the council. As at present constituted the council consists of 50 members altogether, out of whom 30 nominations are made by Government. The Committee have proposed a council with a

membership of 56 out of whom ten representatives will be nominated by Government. His Excellency the Governor accepts the suggestion that Government should nominate only ten members to the council. The future constitution which His Excellency the Governor suggests for the Council is as follows :—

- (1) A President
 - (2) A Secretary
 - (3) A Treasurer
- } to be nominated by Government.
- (4) Minister of Education.
 - (5) Director of Public Instruction, United Provinces.
 - (6) Vice-Chancellor and one other representative from each university in the United Provinces.
 - (7) Heads of the departments of Hindi and of Urdu in the five universities.
 - (8) Two members each from :—
 - (a) The Nagari Pracharini Sabha, Benares ;
 - (b) The Hindi Sabitya Sammelan, Allahabad ;
 - (c) The Shibli Academy, Azamgarh ;
 - (d) The Jamia Millia, Delhi ;
 - (e) The Hindustani Talimi Sangh, Sewagram, Wardha ;
 - (9) Ten members to be nominated by the United Provinces Government ;
 - (10) Five members to be co-opted by the above.

Total 50 members.

There should also be a Vice-President elected by the Council from amongst themselves.

It is most necessary that the Executive Committee should be a body which will function competently and smoothly. His Excellency the Governor sees no reason to alter the constitution of the present Executive Committee which he thinks is quite capable of working efficiently, except that the four members nominated by the Government

and two elected by the council will in future be all elected by the Council itself.

12. His Excellency the Governor has given careful consideration to the important question whether the Academy should elect any fellows or not as a mark of its recognition of those who have achieved literary or scientific eminence. He is of the opinion that if this right is judiciously exercised the election of fellows by the Academy would be greatly appreciated by the general literary and scientific public and that the bestowal of this honour would help the development of literature and science on the right lines. The claims of those whom the Academy may want to recognise in this way should receive the most impartial consideration and the honour should be jealously reserved for the select few whose pre-eminence is undeniable. His Excellency the Governor would like to see the maximum number of fellows kept as small as possible and he accordingly proposes a reduction in the present number of thirty to twelve.

APPENDIX A.

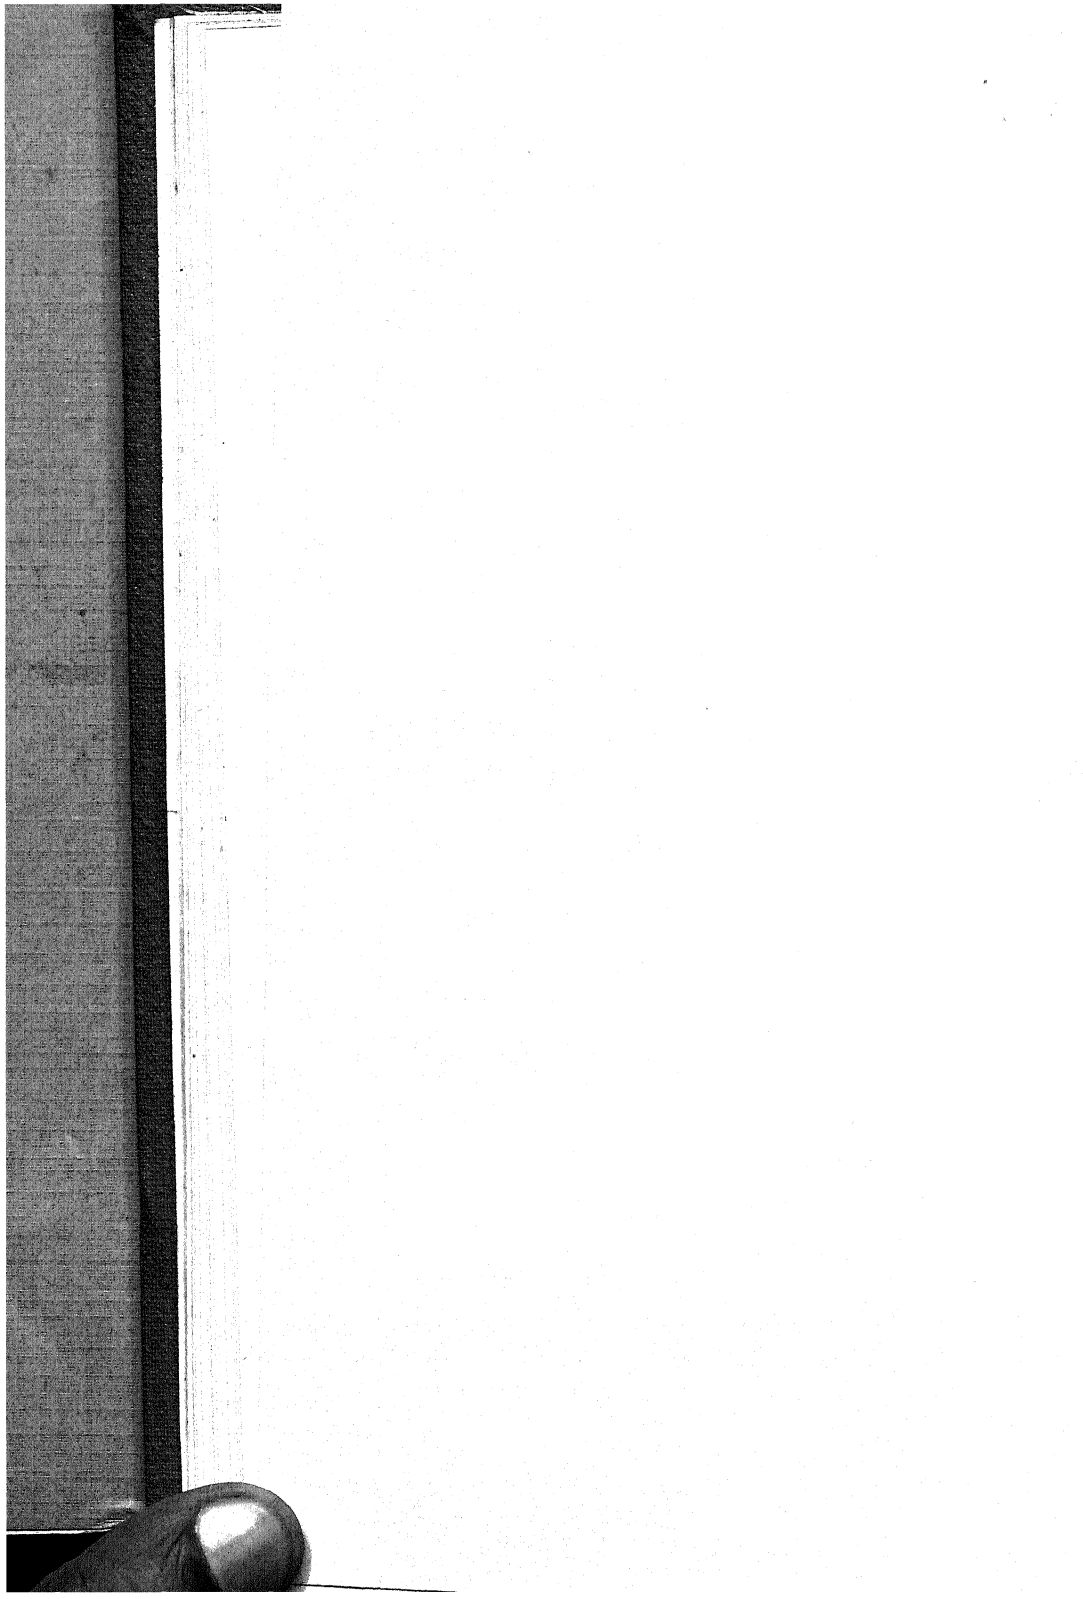

Proceedings of the Literary Advisory Committee (Hindi) held in the office of the Academy on Sunday the 18th April 1943 at 9 A. M.

Members Present.

1. Sjt. Rai Krishna Das
2. Prof. K. P. Misra
3. Mr. K. D. Gaur
4. Mr. Din Dayal Gupta
5. Pt. Ayodhya Nath Sharma
6. Pt. Udai Narain Tewari

1. To consider subjects for the proposed books on which prizes are to be awarded

A. The Committee assume that the prizes announced for various books will be awarded on the basis of submitted MSS, and that the Academy intends neither to incur any expenditure on their publication nor to claim any profits out of their sales. The number of prizes on approved MSS may be about 25 this year.

The Committee suggests a change in the title of the words (*Uddahar*) being suggested to the Academy. It also suggests that although the prizes are given on the approval of the MSB, the question of the award should be given to the Academy. The Academy should have the option of giving prizes on the basis of the price of the printed books.

The Committee approves the following list of prizes:

1. Philosophy
2. Religion
3. Sociology and History
4. Arts—Useful and Fine
5. Natural Science
6. Literature
7. Language
8. Literature
9. History
10. Natural Science

The Committee recommends the Academy should and revise the enclosed lists of books and prizes on the basis of the specialists.

B. The Committee suggests that the Academy should give prizes given on approved MSB books. The Academy may give prizes by giving prizes on published books on the basis of the price during the last two years and the price of the book in the previous year only.

The Committee suggests that the Academy should give prizes on books may be given this year on the following basis:

- (a) Philosophy and Religion
- (b) Sociology and History
- (c) Arts—Useful and Fine
- (d) Literature
- (e) Creative Literature
- (f) Language
- (g) Natural Science

If standard books are given, the Academy may give prizes or prizes may be given on the basis of the price of the book.

2. To consider the matter of the Academy's Association of Associate Members.

The Committee suggests a length of 70,000 to 80,000 words (*Vibhaktis* being counted as part of words). They also suggest that though the prizes may be given away on the approval of the MSS, 25 copies of printed works should be given to the Academy on publication. The Academy should have the option of prescribing the format and the price of the printed books.

The Committee approves the following ten categories :

1. Philosophy ; 2. Religion ; 3. Sociology ; 4. Philology ; 5. Natural Science ; 6. Useful Arts ; 7. Fine Arts ; 8. Literature ; 9. History ; and 10. General works.

The Committee authorises the convener to complete and revise the enclosed lists of topics in consultation with the specialists.

B. The Committee further feels that the system of prizes given on approved MSS should be supplemented by giving prizes on published books—initially published during the last two years and afterwards published during the previous year only.

The Committee suggests that seven prizes on published books may be given this year on the following subjects :—

- (a) Philosophy and Religion
- (b) Sociology and History
- (c) Arts—Useful and Fine
- (d) Critical literature
- (e) Creative Literature
- (f) Language
- (g) Natural Science

If standard books are not submitted the individual prize or prizes may be held over for next year.

2. To consider the scheme for Reader's Association, or Associate Members.

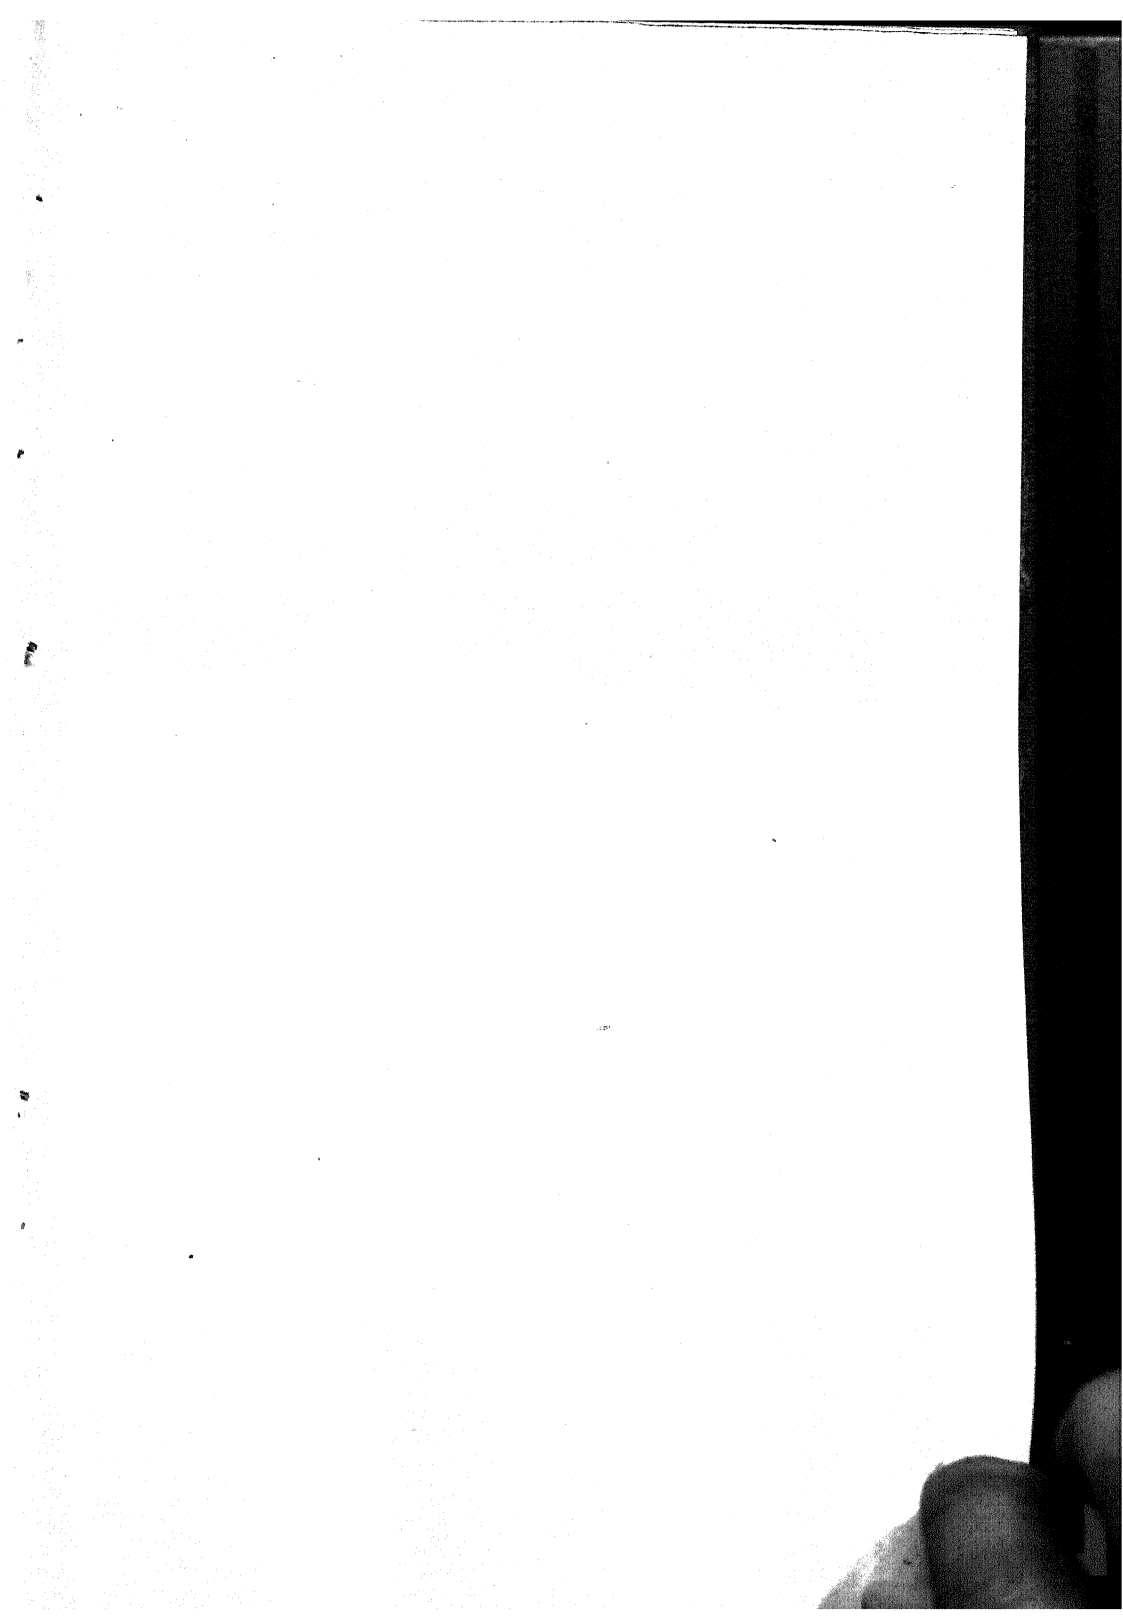

While leaving the details to be filled in by the Committee appointed to make rules in this behalf, the Advisory Committee suggest that the Central organisation of the Reader's Association have two separate sections, one each for Hindi and Urdu, each section having the power to affiliate smaller units of its kind in the Mufassil Areas within the province or outside. They suggest the name "Pathak Mandal" for the Hindi Section of the Association, and the membership subscription as Rs. 3/- per annum. They further suggest that the Hindi Journal of the Academy be given away free of charge to members belonging to the Hindi section and other publications be given to them at such concession rates (not less than those allowed to book sellers) as the Executive Committee may prescribe.

3. To consider the scheme of forming a Writer's Association.

The Committee suggest that 25 Foundation Members selected by the Executive Committee from among leading Hindi poets, novelists, dramatists, critics and literary Journalists from the nucleus of the Hindi Writer's Association and that the Association be called the "Hindi Lekhak Sangh". Subject to the final approval of the Executive Committee the Foundation Members be entrusted with the making of a constitution for the Association. The prize-winning authors of the Academy should automatically become members of the Association and the Foundation Members should be urged to prescribe a suitable standard of merit for other entrants.

4. To consider the publication of Comprehensive Bibliographies of published books in Hindi and to consider whether a gradation is possible and desirable.

The Committee strongly recommend that early steps be taken for the publication on behalf of the Hindustani

Academy of a comprehensive bibliography of published books in Hindi following broadly the lines of Dewey's Decimal classification while this bibliography should be a basic book of reference, the Academy could also publish from time to time lists of best books drawn up for special and restricted requirements. For the comprehensive bibliography above suggested the Committee consider that a gradation according to merit will not be desirable.

5. To consider the preparation of lexicons of Scientific terms and other reference books.

The Committee note with regret the general lack of standard lexicons and other reference books in Hindi and as an initial step recommend the preparations of the following lexicons :—

(i) A standard English-Hindi Dictionary of technical words required for the arts and science subjects taught in the provincial Universities upto the M. A. or M. Sc. standard ; and

(ii) A general English-Hindi dictionary of the type of the standard English-Urdu dictionary edited by Maulvi Abdul Haq and published by the Anjuman-Taraqqi-Urdu.

(iii) Dictionary of names and persons and places both historical and mythological occurring in Hindi literature.

While the first would help in the production of books on Scientific subjects in Hindi and would standardize equivalents from English, the second would greatly aid the work of translation from English into Hindi of general books.

In regard to the preparation of lexicons of scientific and technical terms the committee are of definite opinion :—

(a) That current English words or their modified forms may be accepted where they have been absorbed in popular speech.

(b) That words of Persian and Arabic origin which have been absorbed in popular Hindi speech may also be accepted.

(c) Where new words are to be coined they should be based on Sanskrit, and collaboration with Bengali, Marathi and Gujrati and other Indian languages be sought with a view to adoption of common equivalents in Hindi along with these sister languages.

(d) Proper names to be retained.

6. To consider list of important books to be translated from other languages.

The Committee fully endorse the need of adequate translations into Hindi of books from other languages both classical and modern, but are of opinion that the work of translations be taken up on a planned basis, and after due deliberation as to principles to be followed in the work. They do not have sufficient data before them to make definite suggestions and request the convener to contact scholars in sister languages as well as others with a view to obtaining suggestions (a) as to line of work to be adopted and (b) as to books of which translations might be taken up.

7. To consider proposals with regard to Academy's Journal.

The Committee note that the Hindustani Journal has completed 12 years of its existence and that a cumulative index of articles and authors is in the press.

They suggest that the Journal should start a new series with newer aims and objects to fulfil.

It should remain a quarterly Journal.

The Committee do not approve of the proposal to lower the present standard of the Journal. They however suggest the inclusion in the Journal of features which should make

an appeal to a wider circle of discriminating readers. The following are the constructive proposals of the Committee.

(a) Though articles of a research nature should continue to be published, the space allotted to them should be restricted.

(b) Efforts should be made to strengthen the review section of the Journal, so that it contained a survey of all important literature published in Hindi during the quarter. In this connection the journal should have a panel of reviewers representing the different departments of knowledge.

(c) An index of important and scholarly articles in other Hindi periodicals should be regularly published in the Journal.

(d) The March issue of the Journal should contain an annual survey of Hindi literature in different departments during the previous year ending in December.

(e) The Journal should have a fixed number of pages devoted to cullings from important articles in other Hindi periodicals.

(f) The annual subscription should be reduced to Rs. 3/- for members of the Reader's Association and raised to Rs. 6/- for others.

8. To consider the manuscripts, waiting publication.

The Committee accept the suggestion of Dr. Dhirendra Varma that of the manuscripts awaiting publication the following may be taken up in the present year.

They further recommend that a series of popular extension lectures in Hindi may be planned and arranged for under the auspices of the Academy.

10. To consider suggestions regarding the Annual Conferences of the Academy.

The Committee suggest that the Annual Conferences of the Academy be revived. They approve of the suggestion to hold these Conferences in different centres in the Province instead of in Allahabad alone. The Conferences should continue to have two sections (Hindi and Urdu) at which papers should be read and discussions held. At the general session, however, representative scholars not only on Hindi and Urdu but also of other sister-languages and others should be invited.

11. To consider ways and means for creation of MSS. Sections in the Library.

The Committee note that the Executive Committee of the Academy have allotted a sum of Rs. 1,000/- only in the current year's budget for the acquisition of manuscripts and that half of this amount would be available for the purchase of manuscripts for the Hindi section. While the Committee consider this sum to be inadequate for the needs of a manuscript library and urge the Executive Committee to make a more generous provision. They suggest that the

work of collecting manuscripts should be started without delay. The actual selection should be made by a Committee of which the following personnel is suggested.

1. Sjt. Rai Krishna Das.
2. Rai Bahadur Pt. Sri Narain Chaturvedi.
3. Dr. Dharendra Varma (Joint Secretary).

With a view to helping the Academy in building up a manuscript section of library the members of the Academy might be specially requested to make efforts within their respective spheres. A notification in the press should also be made.

12. To consider the possibility of co-ordination of literary work vis-a-vis other institutions and offer financial assistance to sister institutions.

The principle of co-ordination is readily endorsed by the Committee. They suggest that within the means of the Academy financial assistance to sister institutions for special purposes should be arranged if necessary by special reference to Government.

13. To consider preparation of books for use in the Universities.

The Committee are of opinion that the services of the Academy could be utilised for co-ordinating and fulfilling the needs of the various Indian universities in respect of books in Hindi for subjects taught in the University. The Convener be authorised to contact proper authorities with a view to obtaining practical suggestions for the furtherance of this scheme.

14. Any other matter which may be brought up before the Committee for consideration.

2. To consider the scheme for the Reader's Association or Associate Members.

While leaving the details to be filled in by the Committee appointed to make rules in this behalf, the Advisory Committee suggest that the central organisation of the Reader's Association have two separate sections, one each for Hindi and Urdu, each section having the power to affiliate smaller units of its kind in the mufassil areas within the province or outside. They suggest the name Idara-e-Mutala for the Urdu section of the Association and the membership subscription as Rs. 3/- per annum. While this bibliography should be a basic book of reference the Academy could also publish from time to time lists of best books drawn up for special and restricted requirements. versity and preferably in collaboration with them. The Committee suggests that learned bodies in Iran and Egypt be also contacted with a view to obtain common equivalents as far as possible. 6. To consider list of important books to be translated from other languages.

The Committee fully endorse the need of adequate translations into Urdu of books from other languages both classical and modern, but are of opinion that the work of translations be taken up on planned basis, and after due deliberation as to the principles to be followed in the work. APPENDIX B.

Extract from letter dated March 6, 1944 from Dr. Gorakh Prasad M. A., D. Sc., Reader in Mathematics, Allahabad University to the Joint Secretary (Hindi), Hindustani Academy U. P., Allahabad.

The Hindi Literary Advisory Committee considers it desirable that the Academy should ultimately bring out an Encyclopaedia in Hindi of the same standard as the Encyclopaedia Britannica, and for this purpose should produce a series of books covering the various

branches of knowledge in the same style as the encyclopaedia.

To begin with, the subject of Zoology may be taken in hand, as there are no books in Hindi on this subject.

For this purpose the subject of Zoology be divided under the following six heads.

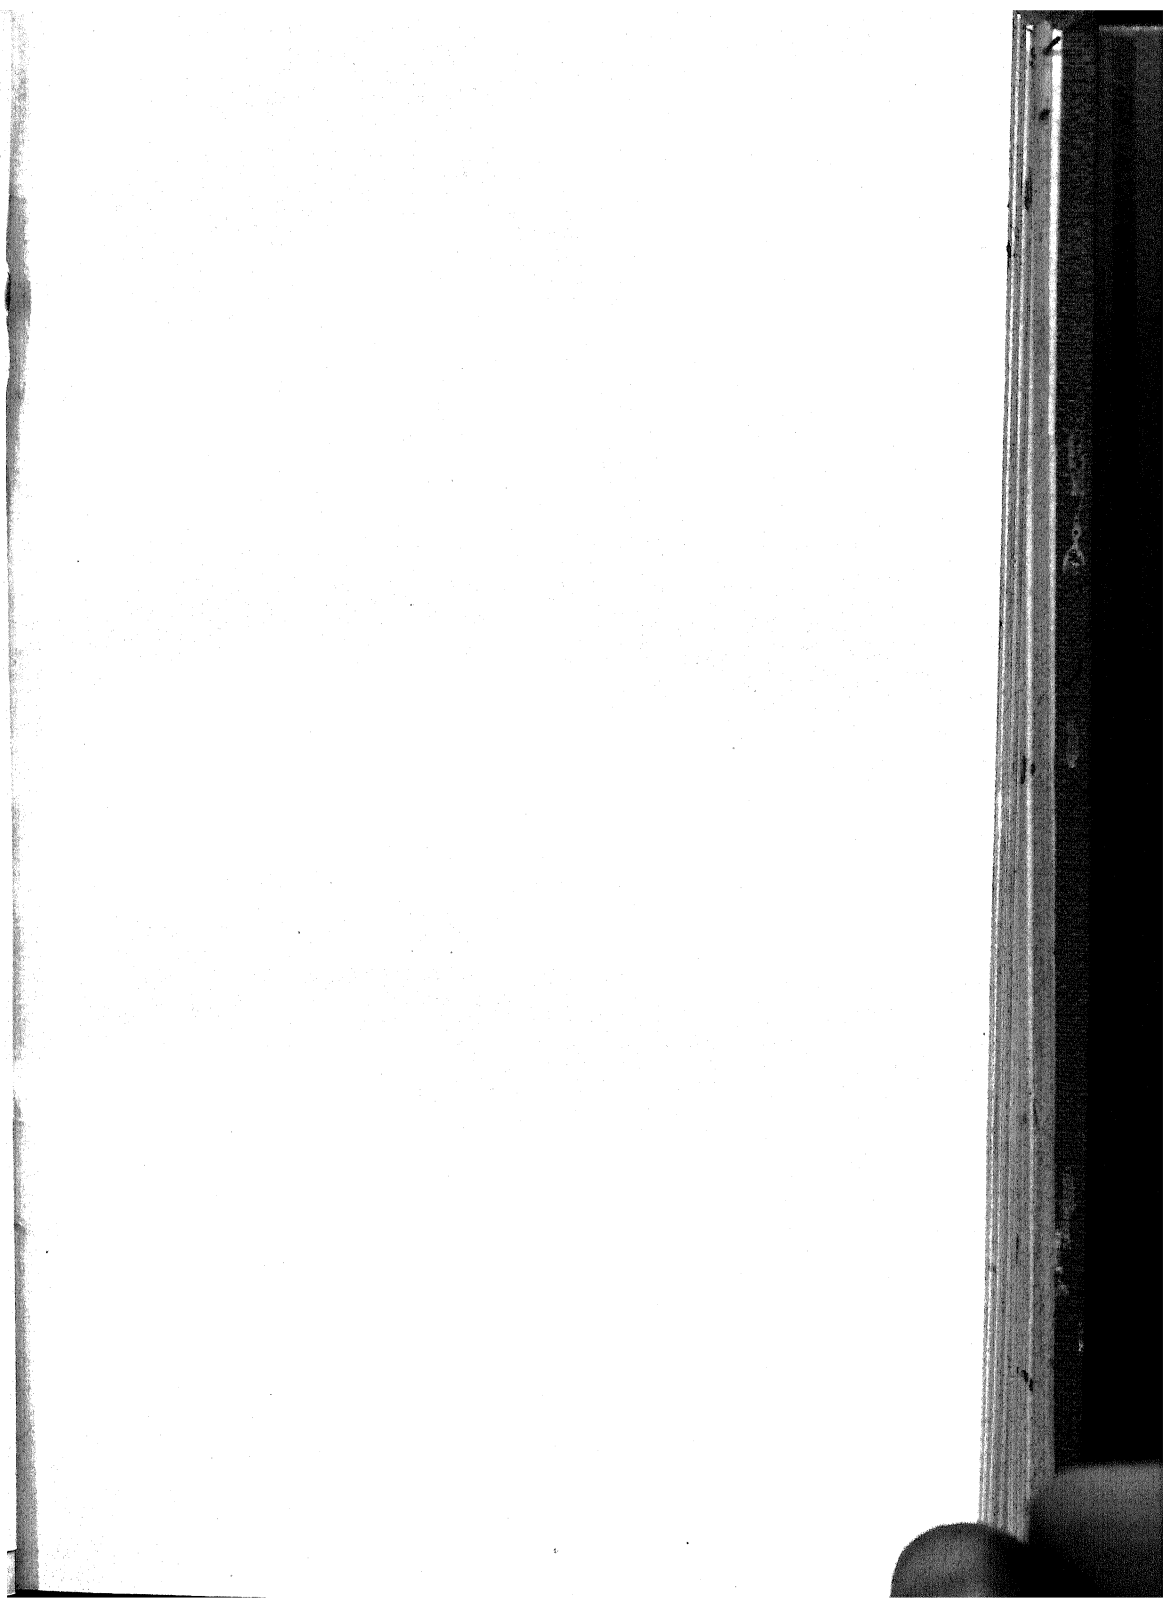

1. Animals, past and present.
2. Invertebrate Zoology.
3. Vertebrate Zoology.
4. Organic Evolution.
5. Herdity and Sex.
6. History and Biographies of Zoologists.

One book should be written on each of these subjects, the treatment being like that in an Encyclopaedia, that is, each article should be independent as far as possible and should be given in an alphabetical order, the standard being roughly that of the articles in the Encyclopaedia Britannica.

The following authors be invited to write the above books, the distribution of the subjects between them being settled by consulting their wishes, and of the editor.

1. Dr. K. N. Bahal (Lucknow, University).
2. Dr. A. B. Misra (Benares, University).
3. Dr. B. C. Mahendra (St. John's College Agra).
4. Dr. Ram Saran Das (Allahabad, University).
5. Mr. S. C. Varma (Allahabad, University).
6. Dr. Murli Dhar Srivastava (Allahabad, University).

If any one of the above is unable to accept, or has been assigned some other work by the Academy, the following authors may be approached in the order given.

Mr. Kanhaiya Lal (Government College, Ajmer), 8. Mr. Ram Das Vidyarthi (Kanya Kubj Intermediate College, Lucknow).

Each author should be paid Rs. 1,000/- (Rupees One thousand) for the work, and he would be expected to give a manuscript of not less than 250 pages, a page being reckoned to be the equivalent of 600 words (not counting Vibhaktis). Three-fourths of the sum to be paid when the manuscript is received complete with illustrations and a certificate by the author that the manuscript can be printed without any change or revision. The remaining one-fourth will be paid when the book has been printed, the author being expected to see one (final) proof.

For each of the above six books a sum of Rs. 400/- (Rupees four hundred) to provide to cover the charges of artist for preparing original illustrations. As regards illustrations reproduced from books, no extra charges will be payable, but each illustration will be regarded as the equivalent of 200 words in the case of illustrations which will be of 10 sq. inches or larger and of 100 words if the illustrations are small. Every original illustration will be reckoned as the equivalent of 200 words.

Dr. Bahal, failing him Dr. A. B. Misra, failing him Dr. Ram Saran Das, be appointed General Editor to see that there is no over lapping of subjects, and to give

advice to authors to secure uniformity and advice on technical words etc. The editor should be paid Rs. 250/- extra for this.

APPENDIX A.

Copy of the Government letter No. A/3040/XV—
411/1944, dated September 15, 1944.

Para 4.

"The expenditure on the literary side has been swelled to the extent of the anticipated income, regardless of the fact whether the programme can be finished within the current financial year. The causes of this are attributed to the fact (1) that the Academy has received or been promised handsome donations for specific purposes and (2) that last year's programme and unfulfilled commitments are to be carried forward. In this connection I am to say that the Academy should build a fund from the donations and should chalk out its programme of work over several years, instead of spending these donations as soon as they are received. These being abnormal times, paper being scarce and under control, the Academy should effect economy as far as possible by curtailing and dropping all avoidable expenditure and by confining itself to the production of works of actual worth and necessity only.

APPENDIX B.

Report of the Sub-Committee.

Under Resolution No. 22 of the Executive Committee held on 6th August, 1944, a Sub-Committee consisting of Dr. Tara Chand, Dr. A. S. Siddiqi and the Secretary and Treasurer, as convener was formed to examine the representations of the staff of the Hindustani Academy. These representations were made both by the Literary staff and the Office. The Hindi Literary Assistant and the Hindi Scholar pray for the revision of their present grade which is Rs. 75-10-175. The Urdu Scholar prays for a grade.

He has not been given a grade but gets a consolidated pay of Rs. 75/- p. m. The Office Superintendent and the Accountant ask for the revision of their respective grades. The present grade of the Office Superintendent is Rs. 75-10-175 and that of the Accountant Rs. 50 5-80. The other two clerks pray to be allowed to draw an increment according to the old grade which was 50-5-80.

It may be mentioned here that the grades of the servants of the Academy have been subjected to variations according to the financial position in which the Academy found itself from time to time. The original grade of Rs. 150-10-250 on which some members of the Literary staff and the present Office Superintendent were appointed was fixed when the Academy was in receipt of Rs. 50,000/- as Government grant. Subsequently when this grant was reduced to Rs. 25,000/- a year this grade was also reduced to Rs. 75-10 175.

The Sub-Committee has examined all these representations very carefully and has also taken into consideration various other aspects of the question. It has reasons to believe that a good deal of dissatisfaction prevails in the staff. The abnormal rise in the prices and the fact that a majority of the servants of the Academy having reached the maximum of the reduced grades has nothing to look forward to, have combined to create an atmosphere of frustration and despondency. The Committee has also given very serious considerations to the argument that considering the amount of work done the present grades are more than adequate and should if nothing be reduced further. In reviewing the situation the Sub-Committee has also taken into account the present system of the working of the Hindustani Aca-

demy and the repeated complaints made by the Joint Secretaries and others about the unsatisfactory condition of the office. The lack of a more workable liaison between the Office and Literary staff has also been brought to its notice. Having considered all these aspects the Sub-Committee has come to the conclusion that it is time the working of the Office and the Literary staff was reviewed in the light of previous experiences and adjustment which changed conditions demand made in order to coalesce the working of both the departments of the Academy. The Sub-Committee is convinced that unless this is done revision of grades and improvement of terms and conditions of services will not have the desired effect.

At present the two departments of the Academy (1) Literary staff (2) Office staff seem to work in water tight compartments. The only connecting link between these two is the Secretary and Treasurer, who ever since the inception of the Academy, has been a part-time officer. With the creation of the two new posts of Joint Secretaries—one for Hindi and the other for Urdu—the task of bringing the work of these two departments into unison has become more delicate and difficult. It is admitted that the creation of these two posts has been amply justified and the Sub-Committee is of the opinion that these should continue. But considering the fact that the Secretary and Treasurer is to be a part-time officer, the Sub-Committee reiterates the need of a full time functionary appointed by and entirely responsible to the Academy. The Sub-Committee is further of the opinion that the whole question of the revision of grade cannot be taken up in isolation as it is very closely connected with the entire working of the Academy. It is, therefore, suggested that more time

should be given to the Sub-Committee to review the entire situation and make final recommendations about the grades of the superior services of the Academy.

But the Sub-Committee feels that some relief should certainly be given to the lower office hands and to the Urdu scholar who has not been given any grade yet. The Office Accountant who is mainly responsible for keeping cash book and checking items of expenditure and who has put in meritorious service in the office of the Hindustani Academy should be given some relief. We, therefore, recommend that his request to be put in the new grade of Rs. 80-5-100 may be granted. As regards the junior clerks Babu Achint Saran Lal and Shah Muhammad Husain should be given a grade of Rs. 50-5-80. Mr. Mohammad Rafi who has been given a consolidated pay Rs. 75/- may be brought into the grade of Rs. 75-10-175. The recommendation of the Sub-Committee about casual leave, privilege leave and officiating and acting allowance and travelling allowance to staff would be put up before the next meeting of the Committee.

PUBLICATIONS

On account of the difficulties in obtaining quota of paper and pressure of work in the presses very few books could be published this year as well. Dr. Mata Prasad Gupta's "Bibliography of Hindi books (1867-42)" is a voluminous work brought out in Hindi during the year. It is a unique and very important reference work. Another Hindi book published is the second edition of Mahamahopadhyaya Dr. Gauri Shankar Hira Chand Ojha's "Madhyakalin Bhartiya Sanskriti". No Urdu book was published. Publication of the following works approved by the Executive Committee could not be taken up for reasons given above. *Hindi*: Twacha Ke Rog by Dr. Newal Behari Misra; Electricity by Dr. N. K. Sethi; Hindu Sabhyata par Musalmanon ka Prabhaya by Dr. Tara Chand; Hindi Bhasha ka Itihas by Dr. Dharendra Varma; Hindi Bhasha aur Lipi by Dr. Dharendra Varma; (Reprints) *Urdu*: Khutute-e-Ghalib Part II edited by Maulvi Mahesh Prasad. Arrangements are being made for the supply of paper and it is hoped that these books would be issued in the coming year.

PREPARATION OF BOOKS

It has been the policy of the Academy to concentrate on the preparation of books during these abnormal times. Out of a number of assignments made last year to various scholars for writing books, manuscripts of the following Hindi works have been received and are ready for the press.

1. Nath Sampradaya : by Pt. Hazari Prasad Divedi.
2. Some Modern Inventions : Dr. Satya Prakash, D. Sc.

No Urdu manuscript has been completed. The following books are in different stages of preparation:—

1. History of English Criticism : by Prof. S. N. Misra, M.A.
2. Cannons of Sanskrit Criticism : by Dr. Aryendra Sharma.

The Constitutional Problem by the Late Dr. Beni Prasad : The Food Problem : by Dr. Phuldeo Sahai Varma ; and Basic Hindustani (Urdu and Hindi) by Mr. Ajmal Khan. The scheme of the publication of various Symposia could not be pushed because of want of sufficient response from scholars.

PRIZES

The Academy announced last year 8 awards (4 for Hindi and 4 for Urdu) of Rs. 500/- each for best books published in the two languages upto 31st March, 1943 under head History and Biography ; Prose Literature ; Poetry and Science, beginning from the dates upto which the previous awards of the Academy had been made.

Awards in connection with these were under consideration. The opinions of the Judges have been received and these are being examined by a special committee.

LECTURES

Dr. Babu Ram Saksena, M.A., D. Litt., of the Allahabad University had been invited to deliver a series of lectures in Hindi on HINDAVI OR DACCANI LANGUAGE AND LITERATURE in the previous year. He delivered the first of this series of lectures on March 18, 1945 in the Hall of the Oriental Department of the University under the Presidency of the Hon'ble Mr. Justice Kamalakanta Verma. The lecture was highly appreciated by the select gathering of scholars present on the occasion.

Mr. Ali Abbas Husaini had similarly been invited to deliver a series of lectures in Urdu on THE DEVELOPMENT OF ENGLISH NOVEL AND ITS BEARING ON THE RISE AND DEVELOPMENT OF FICTION IN URDU.

Mr. Husaini was not able to fulfil his engagements with the Academy.

The Executive Committee of the Academy did not fix up any fresh series of lectures during the year 1944-45.

LIBRARY

The Library of the Academy is divided into two sections Hindi and Urdu. The Hindi Research Scholar was incharge of the Hindi Section. During the year under report 312 books were added to this section. A very important manuscript containing about 70 works of the Muslim mystic Poet Jan was acquired for this section. Of 431 books found missing in the stock taking of the section, done last year, 80 have been traced, 351 books are still to be accounted for.

The Literary Assistant and the Research Scholar (Urdu) were jointly incharge of the Urdu section of the Library. During the year under report 113 books and 15 manuscripts were acquired for the section.

The scheme of recataloguing the Library has been suspended. The total number of books in the two sections at the close of the year was 8258.

FINANCES

The income of the Academy was mainly from the Government grant. A portion of the income was derived from the sale of publications, membership fees of its Associate Members and Donations. Out of the promises of donations made in the foregoing year a sum of Rs. 4,000/- was received from the British Indian Association, Lucknow. The total income of the Academy during the year (including a

Introductory :

With the close of the financial year under report the Hindustani Academy completed the 20th years of its existence. Like the pervious year, this was a year of difficulties in regard to our publication work. As the Academy did not have a regular quota of paper and paper could not otherwise be obtained, a large number of new publications as well as reprints had to be held up. There was no change in the personnel of the office-bearers. The term of office of the various office-bearers, with the exception of that of the President, expired on September 30, 1946. of proper names occurring in Hindi classical literature, an important work upon which he is engaged for the last three years.

Mr. R. C. Tandan while on duty assembled copy for January-March, 1947, number of the Hindustani, and saw through the press the Hindi publications of the Academy. His services were also frequently drafted for odd office work including dealings with pressess, procurement of paper, correspondence with authors and preparation of various statements.

In connection with the editing of the *Dewan-i-Insha* which the Academy has taken in hand, the collection of material, so far as contained in the two manuscripts borrowed from the Osmania University, Hyderabad-Deccan is complete.

The Urdu scholar, Maulana Rafi, is now collating some additional *ghazals* contained in the available printed editions along with those in the manuscript belonging to the library of the Academy. The work is in the final stages.

Publications ;

The Publications of the Academy greatly suffered for want of supply of paper. As a result of representations made to the Commissioner of Civil Supplies, it was only about the end of the working year that a quota of half a ton per month was allowed to the Academy, beginning April, 1947. This quota is hardly adequate for bringing out a large number of books which have gone out of print and new manuscripts which have kept accumulating. The situation would, however, be eased to some extent during the ensuing year when it may be hoped that several of the manuscripts on our waiting list and new editions could be put through.

During the year under report the Academy published Seth Govind Dasa's drama *Amiri ya Gharibi* on which it had awarded a prize of Rs. 1200/- in the previous year. Progress was also made with the printing of the new edition of Bhartendu Harishchandra by Syt. Braj Ratna Das which is nearing completion.

Great difficulty has been experienced in respect of Urdu publications of the Academy, because these publications are brought out in typography and the local presses plead dearth of Urdu compositors. Despite efforts made in this connection no Urdu book could be sent to press. This difficulty, it would appear, can be overcome only when the Academy has a press of its own. Meantime, negotiations with presses in Hyderabad (Deccan) for the printing of Urdu books of the Academy have been started and it is proposed to get the Urdu publications printed there.

Sales :

The sales from our publications during the year amounted to Rs. 7,635/1/6 as against Rs. 8,998/1/3 during the previous year. The comparative loss is due to the fact that more than a dozen of our best selling books were out of stock throughout the year and we could not reprint them for want of paper.

Prizes :

No prizes were awarded for Hindi or Urdu books during the year under report. The Academy has announced a prize of Rs. 500/- on the best book on fiction in Hindi published during April 1943 to March 1946. The decision of the judges has not been announced as yet.

Lectures :

Mr. Ghulam Yazdani, M.A., O. B. E. Director of Archaeology (Retd.) Hyderabad-Deccan was invited by the Executive Committee to deliver a course of lectures in Urdu on an archaeological subject. He has accepted to do so and is preparing the lectures. They will be delivered sometimes during the coming winter.

Library :

The Library of the Academy is divided into two sections—Hindi and Urdu. The Hindi scholar was incharge of the Hindi section whereas the Urdu Literary Assistant and Urdu Scholar jointly looked after the Urdu section. During the year under report 156 new books were added to the Hindi section and 31 books were added to the Urdu section. The total number of books in the two sections at the close of the year was 8558.

Finances :

The income of the Academy was mainly derived from Government grant, sale of books and journals and interest on fixed deposits of donations. The total income of the Academy during the year under report including the opening balance was Rs. 86,158/14/8 and the total expenditure during the year was Rs. 30,565/12/- leaving a balance of Rs. 55,593/2/8 at the close of the year.

Second part of the Report of the Sub-Committee formed under Res: 22 of the Executive Committee held on 6-8-1944.

This is the second and final part of the report of the subcommittee consisting of Dr. Tara Chand, Dr. A Siddiqi, and the Secretary and Treasurer, as convener, formed under resolution 22 of the Executive Committee held on 6-8-1944. The first part of the report which was sent in on 11-5-1945 surveyed the general position in regard to the staff of the Academy and recommended certain steps for immediate relief of the lower office hands. The subcommittee, however, asked for further time to enable them to make overall recommendations in respect of the

salaries and the cadre of the literary as well as the administrative staff. The present report, should therefore be read in the context of the previous one.

The subcommittee have given their full and anxious thought to the subject, and if they have taken time to make their report, it is because they were watchful of any indications there might be of an improvement in the financial position of the Academy, before they finalised their recommendations. They feel that though there is an urgent need for more funds, they have to base their proposals on the present scale of Government grant, viz. Rs. 25,000/- a year.

The subcommittee have not been unaware of the persistent criticism that the Academy was overstaffed and the amount spent on salaries of the employees was out of proportion to what was spent on publications. While realising that such criticism was not without force, they have also had to consider that the inability of the Academy to bring adequate financial relief to the staff, some of whom reached the maximum of their reduced grades years back, had caused a feeling of frustration which has bound to react on the efficiency of its own work. Further, as the subcommittee pointed out in the first part of their report, there was an urgent need for creating a more workable liaison between the office and the literary staff which had not pulled on well together. The subcommittee were thus faced with the threefold task of (1) suggesting means for a better coordination of work as between the office and the literary staff, (2) making available larger funds which could be utilised on publications, and (3) fixing a cadre which, within the means of the Academy, could be put on more liberal scales of pay.

The subcommittee have been told that the Joint Secretaries are willing to forego their allowances of Rs. 50/- each in order to enable the Hindustani Academy to implement any suggestions for improvement which may involve extra expenditure. They welcome this generous gesture and propose to take advantage of the offer.

So far as coordination of work between the different departments of the Academy is concerned, the subcommittee have already pointed out in the first instalment of their report that the Secretary and Treasurer being a part-time officer needs to be assisted by a full-time functionary appointed by and entirely responsible to the Academy. He should, under instructions of the Secretary and Treasurer and the Joint-Secretaries be responsible for the working of both the literary and administrative departments. He may be called the Assistant Secretary and should be one who has had experience of institutional work such as that of the Academy. He must be a man of ideas and should, as he will have to supervise the literary work, have distinct literary bent of mind. He would be the chief officer of the Academy and would look to its literary as well as commercial sides. He should be given a suitable grade. The subcommittee suggest a grade of Rs. 200-10-400. This in their opinion is the lowest that should be offered and as the financial position of the Academy improves, it should be revised and the maximum fixed at Rs. 500/-. The office, which consists of four clerks, besides the office Superintendent does not in the opinion of the subcommittee need an office superintendent on as such a scale of pay. As a good deal of office work will be done by the Assistant Secretary, the present strength of the office

should be sufficient. In the matter of grades for office hands, the subcommittee would recommend that the Accountant who would be the senior clerk should get a grade of Rs. 80-5-120 and the other clerks be given grades of Rs. 65-3-100. The President's clerk may be given an allowance of Rs. 25/-.

As regards the literary staff, there are at present two assistants, one each on the Urdu and the Hindi sides, their grades being Rs. 75-10-175. The subcommittee are afraid that within the means of the Academy they can not recommend that all the posts be retained and at the same time their scales of pay improved. They also feel that for the present output of work, one literary assistant each on the Urdu and Hindi sides should be entirely sufficient. They would, therefore, recommend that posts of two out of four literary assistants be retrenched or held in abeyance until better times. The remaining literary assistants should be given a grade of Rs. 100-10-250.

As a result of these retrenchments and the acceptance of the generous offer made by the Joint Secretaries, it would be possible to satisfy in some measure the three objectives which the subcommittee set out before them.

Recommendations :

1. In order to coalesce the work of the different departments of the Hindustani Academy, there should be an Assistant Secretary.
2. The post of the Office Superintendent should be retrenched.
3. The posts of two Literary Assistants, one each on the Urdu and Hindi sides, should be retrenched or held in abeyance.
